Squeegees

Product Type	Benefit Feature
Floor Squeegees	Clears floors of water and much more (page 348). Use to clear away large volumes of mud, snow, slush, and other debris. Squeegee frames are made with galvanized steel to withstand the heavier workload. Nylon inserts (page 348) adapt squeegees for use with Acme-threaded handles. 
Sanitary Squeegees	Available as standard or brush/squeegee combination (page 348). Ideal for hospitals, bathrooms, kitchens, dairies, swimming pools and other areas where cleanliness is key. Durable polypropylene construction resists acids. 
Water Wands	Wash and wipe away at the same time! Water Wands (page 347) combine with aluminum handles (page 347) to wash thoroughly and reach difficult spots. Use to clean grout, uneven surfaces, tiling, and more. After the washing is done, the squeegee's rubber blades whisk away standing water, leaving the surface finger dry. Adapters are available (page 351) to create Acme-compatible sockets on the wands, allowing for the use of tapered or threaded handles. 
General-Duty Squeegees	Perfect for washing and wiping glass. Allows for easy handling and gentler use on fragile surfaces. Use the sponge for scrubbing, flip the squeegee over, then use the rubber blade for wiping water away. For use on vehicle windows, mirrors and smooth surfaces that need cleaning and instant water removal (page 349). 
Window Squeegees	Wipe away water with a longer reach. The soft, thin rubber blade clears water from any smooth, flat surface and works perfectly on windows. Handle allows squeegee to be attached extension wands to reach higher areas (pages 349-350).
